Med Roll

Shipping & Logistics

Integrated logistics across the Med

Med-Roll is an NVOCC, a premier shipping and logistics provider offering integrated intermodal solutions encompassing across sea, road, and rail transportation to and from the Mediterranean regions to Europe

Trieste - Genoa - Cairo - Alexandria - Damietta - Mersin - Tanger Med

Established as an innovative start-up company in 2022, Med-Roll is a registered Multimodal Transport Operator (MTO) integrating different transportation modes (sea, road haulage and rail) to ensure optimized logistics solutions under one single B/L from origin to destination.

Med-Roll is acting as a Non-Vessel Operating Common Carrier (NVOCC) offering reliable freight services, acting both as a carrier for shippers - with direct control of slots on main ro-ro intra-mediterranean shipping links - and as a shipper for the main carrier.

The backbone of express trade across the mediterranean, roll on roll on (Ro-Ro) sea transportation offers a cost-effective solution for freight that require short transit times and delivery to the final client with one single contract of transportation.

We run along with DFDS the weekly sea link from Trieste to Damietta (and the other way around) with just 58 hours of navigation, 208 slots available, 60 of which pluggable.

The Trieste-Damietta route is a weekly service with fixed timetables, on regular basis. The navigation between Damietta and Trieste, and the other way around, takes 58 hours.

- The North bound route from Damietta to Trieste is direct while the South bound route sees stop in the Greek port of Patras, on the way to Damietta.
- The route is operated by DFDS vessels, the M/V Olympos Seaways with a total capacity of 208 slots (max length 14 meters), 60 of which are equipped with electric plugs.
- Under a slot charter agreement with DFDS, Med-Roll pre-paid and therefore controls all 60 plug-in slots, operating as carrier for all the reefer trades.

Linking the Med with Europe

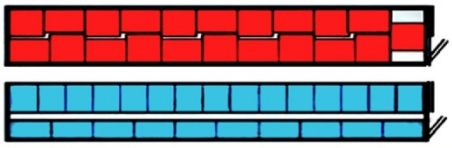

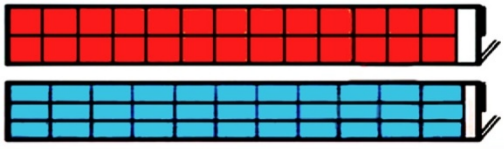

Fast deliveries in Europe

DE	Munchen	1 day
	Stuttgard Düsseldorf	2 days
UK	London Canterbury Birmingham	4 days
NL	Barendrecht Ridderkerk Breda	3 days
F	Paris Perpignan	3 days
